

Corey Furin

"My name is Corey Furin, I have lived in Eagle, ID with my family since 2016 and we love it here! Sports have always been a part of my life and I was actively involved in all kinds growing up.

I played soccer, basketball, baseball, football and track then focused primarily on cross country and track in high school that led me to doing that for a little bit in college.

I have been coaching soccer for 3 years and have been doing it through Eagle Parks and Rec for both my daughter and son.

I noticed that a lot of girls were aging out of rec here in Eagle and they wanted to keep playing but didn't know what options would be best, so I decided to reach out and create the Real Eagle team to allow these girls to continue to play and continue to improve on their skills and development while learning how to be more competitive and always always, having fun!

I am excited to be a part of such a great club that treats you like family! I look forward to having great seasons and seeing more and more kids coming out to play soccer, as I believe it is the best development sport there is for any type of athlete."
